Profile

I am a versatile, Innovative and detail-oriented Software Engineer and Full-Stack Developer with over 5 years of hands-on experience in website development. Specialized in frontend engineering, delivering intuitive, responsive, and user-friendly interfaces. Proven track record of completing 30+ successful projects, demonstrating expertise in designing scalable solutions, improving user experiences, and optimizing performance. Adept at collaborating with cross-functional teams and bringing ideas to life through clean, efficient, and modern code.

Work Experience

Freelance and Contract

Remote | Jan 2020 – Till present

- Independent Frontend Developer with 5+ years of proven expertise delivering scalable, user-focused web solutions through 30+ successful projects.

Frontend Developer Intern

TaTech Hub | Feb – Nov 2024

- Collaborated with senior developers to enhance UI consistency across devices, while gaining hands-on experience in debugging and code optimization within a team environment.

Projects and Experience

- 3D Gaming Web App – Developed an interactive 3D gaming application using React.js, Tailwind CSS, and Spline, delivering an engaging user experience with smooth animations and real-time rendering.
- E-Commerce Web Application – Built a scalable online store with React.js, Redux, and Firebase, featuring product listings, cart functionality, and secure authentication.
- Python-Integrated Web Solutions – Created custom applications integrating Python for backend logic and data processing, enhancing functionality and performance across full-stack solutions.
- And so many other beautiful projects....

Education

Kwara State University, Malete
